AFFIDAVIT OF PAUL LATTEN

Paul Latten, being duly sworn, and having personal knowledge of the facts set forth herein, hereby deposes and says that:

1. I am an employee of Arteva, the former employer of the co-inventor Mabrouk Ouerdemi of the invention disclosed and claimed in the U.S. Patent Application 09/896,799 filed on June 29, 2001, and entitled "DRY-LAID WEB WITH HOLLOW SYNTHETIC FIBERS," the Continuation-in-Part Application 10/345,001 filed January 15, 2003, and the presently filed Continuation-in-Part Application (hereinafter referred to as the "patent application").
2. Arteva North America S.à.r.l. is a corporation organized and existing under the ^{laws} ~~laws~~ of the Country of Luxembourg established at Talstrasse 80, 8001 Zurich, Switzerland, having an office at 5401 Charlotte Park Drive, Charlotte, North Carolina 28217.
3. Efforts involving employees of Arteva resulted in the invention disclosed and claimed in the patent application. After the present invention was completed, a patent application was prepared on behalf of Arteva.
4. The patent application and Declaration and Power of Attorney documents were submitted to each inventor for review and signature. Both the Declaration and Power of Attorney documents for originally filed application were signed by all co-inventors. The CiP application filed on January 15, 2003 was also signed by all of the co-inventors.
5. On August 2, 2003, Mabrouk Ouedemi terminated his employment with Arteva, Inc., and relocated to his native country of Tunisia,

leaving no forwarding address or correspondence at which he could be reached. His present whereabouts are unknown. There is no reasonable method to reach Mabrouk Ouederni that would likely result in contact with the inventor.

6. Mr. Ouederni has acknowledged his inventorship of the present invention in the previously filed patent applications filed on behalf of Arteva, Inc. from which the current CIP application claims priority.

7. Since Mr. Ouederni has acknowledged his inventorship in the previous patent applications from which the current CIP claims priority, but he cannot be reasonably located to join in the patent application, it has been necessary to file this application with the signature of only one inventor in order to protect Arteva's legitimate rights in the United States and in foreign countries and to prevent irreparable damage to Arteva.

This the 18 day of November 3, 2003.
